NOTES:

- For convenience of the citizens desiring to avail guidance at any centre, it is requested that prior appointment must be taken before visiting the centre.
- Volunteers are providing honorary services for the cause. No phone calls should be made to any volunteer except for the purpose of fixing up the appointments. Be precise in talks while discussing about the matter while fixing up your appointment on phone.
- A citizen may contact any centre convenient to him/her. Once the guidance is obtained from one centre, contacting other centres for same problem should be avoided.
- This movement is to educate and guide a citizen who is obstructed from enjoying his legal rights and thus to empower the citizen to fight his own battle against the injustice caused. However, where injustice is caused to society or community at large, then combined efforts may be taken up.

- In India, there are more than 5000 different laws. Guidance or counseling will be provided only in respect to your query related to "Right to Information Act, 2005". If your query is related to any other Act / Law, then our centre will not be able to help you in any manner.
- Right to Information is very effective weapon and using it in right manner can solve many problems / queries. However one should always remember that RTI is only a medium but not the means to overcome obstructions in enjoyment of legal rights.
- Perfect use of Right to Information Act should be made by proper thinking and in right manner and for right cause. Misuse or use for vengeance cannot be tolerated.
- Procedure to be followed under this Act is legal procedure and therefore sufficient time gap in understanding and studying the facts of each case will be necessary before making any application under this Act. So, instant solutions should not be expected.
