NOTES: 1) This movement is to educate and guide any aggrieved person or to any other person who is obstructed from enjoying his legal rights and thus to empower the citizen to fight his own battle against the injustice caused. However, in exceptional case, where injustice is caused to society or community in general, then in such case, combined efforts may be taken up. 2) For convenience of the citizens desiring to avail guidance at any center, it is requested that prior appointment must be taken before visiting the centre. 3) Volunteers are providing honorary services for the cause. No phone calls should be made to any volunteer except for the purpose of fixing up of the appointments. Be precise in talks while discussing about the matter while fixing up your appointment on phone. 4) A citizen may contact any of the centers convenient to him/her. But if once the guidance is obtained from one center, then contacting other centers for same problem should be avoided. 5) In India, there are more than 5000 different laws. From our centers, guidance or counseling will be provided only in respect of your query related to "Right to Information Act, 2005". If your query is related to any other Act / law, then our centre will not be able to help you in any manner, which you please note. 6) Right to Information is very effective weapon and using it in right manner, can solve many problems/ queries. However one should always remember that RTI is only a medium but not the means to overcome obstructions in enjoyment of legal rights. 7) Perfect use of Right to Information Act should be made by proper thinking and in right manner and for right cause. Misuse or use for vengeance cannot be tolerated. 8) Procedure to be followed under this Act is legal procedure and therefore sufficient time gap in understanding and studying the facts of each case will be necessary before making any application under this Act. So, instant solutions should not be expected.
